search on the North & South sides
of said river up to the J. M. Gu-

of a careful search of six days
with eight men I only found
one old established corner -
it being the North corner of a Survey

varas about 15 inches dia. The marks
show to be very old & made just as
or like J. S. H. Graessumt always
made his marks - as I have found

many of his marks - with a
chap or blaze over & under the
mark - & running up & down
said River across a number of
Surveys I found the meanders to
agree with the field notes,

Beginning at the corner last
described I run from said corner
to & connected with the N.E. corner
of B.S. & F. Survey No. 110. & N.W. corner
of B.S. & F. Survey No. 107. Wells &
Tully assignee,

the S.E. corner of Sur. No. 261. in
name of Juana Calvillo or at
St. Evell. Thence running South
& East back of the River surveys
round to & establishing the said
S.E. corner of J. H. Gibson Sur. No. 37.
