Hon W. C. Walsh;

Dear Sir:

The parties interested in the A. W. Patten, have asked or requested me to send you a statement of the work that I did around the Rutledge a few weeks since. Enclosed you will find it. I have tried to represent to you what we did, what we found, - and, what we failed to find. I think this is all I can do with the survey. The North line of the A & F C, and State sec. is the only marked line that I could find running S 60 W. This line is mkd through, whenever we found timber.

Very Respectfully,

R. W. Priest.
