

N.B. The lines marked thus, run at  $10^{\circ}30'$  E. variation, the  
 others at  $9^{\circ}45'$  E. Johnson.  
 J. M. Johnson Deputy Surveyor for Texas District certifies  
 the above diagram to represent the situation of surveys made  
 by me with their connections with other surveys, as per field  
 notes returned to the District Surveyors Office, San Antonio, Tex.  
 Nov. 1849.  
 J. M. Johnson
