Mr. J. J. Grier

Comr Genl Land Office

Trustee.

Dear Sir:

Please find enclosed Field notes a application  
of T. Wilson Prescription. *Not filed!*  
Sketch of part of same. *J. W.*

About a year ago I forwarded Field notes of Survey  
N<sup>o</sup> 786, lat. of Fr. Florence, but Patent was refused  
because the North & South lines were 214 m longer  
than the map allowed. — It is impossible for  
me to accept the call distance, because second  
Survey West of N<sup>o</sup> 786 depend on its correctness,  
as it stands in my field notes, and I would have  
to alter all these field notes given out in to  
false, to conform with the old error on map.

There are several more large errors in the old  
Survey as shown in enclosed sketch, which I will  
hard to refer to, in due time.

Very Respectfully  
W. B. Johnston
