

State of Texas
County of Mason

H. R. Biberstein Special Deputy
Surveyor of Mason County do hereby certify,

that the representation on this map is true and correct according to actual measurement upon the ground and I do specially certify, that the original bearing trees have been identified of all corners designated thus ○ - From F. Weiss S.E. corner I have measured West 510 ors identified the N.W. corner of Geo. Erk N° 199, thence at 834 ors established F. Weiss' S.W. corner and from thence at 3480 ors intersected a line running South, which I had measured on the preceding day, commencing at the original S.W. corner of J. G. Schweitzer survey N° 5 thence West 263 ors, thence South 937 ors, thence East 94 ors, thence South 1344 ors, thence West 1088 ors, thence South 1135 ors to the point of intersection above mentioned.

I further certify, that the corners on the line (N. 980 ors) dividing the two Sophia Koenig surveys were identified by me from the original bearing trees as described in field notes, but no other corners or lines of the said S. Koenig surveys could be found and their N.E. corner, S.E., N.W., & S.W. corners have been established by me from the two corners found, connecting to the G. Froehlig survey N° 3 which I found 308 ors lying over the S. Koenig surveys. The original bearing tree of the G. Froehlig's survey N° 3 S.E. corner having been found I further certify that by actual measurement a distance East of 2163 ors was found to the S.W. corner of J. G. Schweitzer survey N° 5, also that the S.E. corner of the Rott 79 acre survey was established by me in December last at 1900 ors East from the S.E. corner of G. Froehlig, supposing to be at the J. G. Schweitzer S.W. corner, but having actually a distance of 263 ors between them.

Given at my Office Mason the 28 July 1875
H. R. Biberstein
Special Deputy Surveyor of Mason Co.
