

Fager Pass April 21st 1873

Hon Jacob Kuehler }
Comm Land Office }

Dear Sir Your circular of Mar.
3^d is at hand, in reply would state
that this county is poor and the
finances is a bad condition scrip
not selling above twenty cents on
the dollar and no prospects of
improvement. Therefore there has
never been a Surveyor Elected
for this County. and it is still
attached to Bexar Land District

All the County map that I have
is an old one which I received
from Uvalde Co. which does not
show the surveys in the portion added
from Kinney on the north nor show
the correct Eastern boundary I have
applied to the County Court but the
Can not furnish funds to procure a
new one. I wish to Enquire from
you what a new map of this county
properly certified would cost as I
think of purchasing one out of my
own pocket if it should not

be too expensive

Hoping you will kindly
give this consideration at your
Earliest leisure and excuse the
trouble I am giving you I am

Most Respectfully Yours

John L. Spruell

Special Deputy Surveyor for
Maverick County
