Report of Vacancy

BRADY, TEXAS, March 12 1930

Hon J. M. Robinson Court House Land Office
Austin

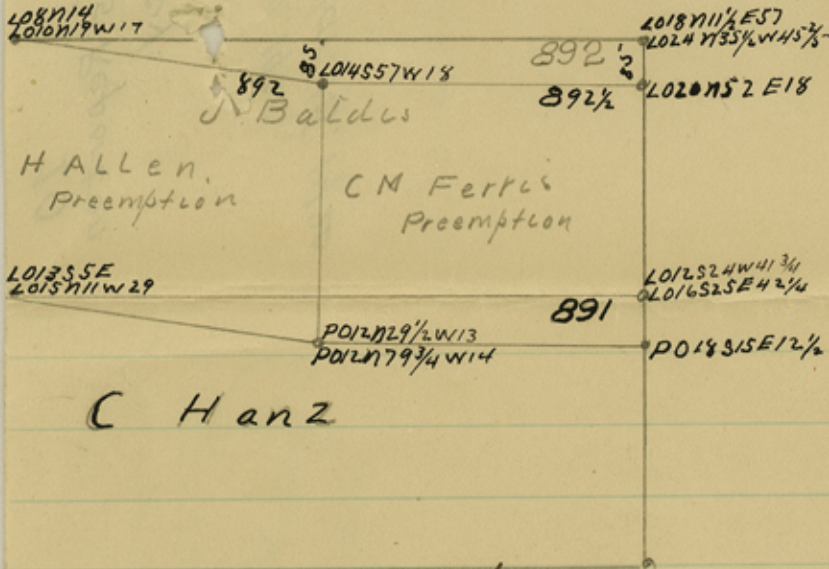

Dr Sir

There is a small vacancy along what was the north line of Baldie's survey 892. In putting in the pre-emption surveys for Allen + Ferris the surveyor actually put them as is shown in this diagram. This is in J. S. Neale's pasture and I reported it to him ten or twelve years ago. And as he took no notice of it I have considered it a free piece of land for anyone who wanted to file on it.
