I then made connection between the 19 mile post
 on County line and the NW corner of st: 104 Hooper &
 Wade Survey and found it to be 132 m E and 8 1/2 m N
 of said 19 mile post;

Also from the 3 mile post to NE corner of
 st: 104 Jane Williams Survey which was to be
 552 m. S and 339 m E. of said 3 mile post.

From the 27 mile post on County line the SW
