District of Milam
I do Certify that within Certi-
-cate or report of W. W. Cusker Dep Surveyor I believe to be
Correct and wish to know whether or not you consider the
land vacant between the Little River Leagues and the S. C.
Robertson's League Block as there appears to be a space
of 4100. vars between the above mentioned Survey
Given at Caldwell this 1st dgy of June 1849

J. C. Robertson
District Surveyor

J. W. W. Cusker - Dep Surveyor for Milam District
Certify that from actual survey and examination
there is an error in the ^{former} representation of the survey
of Janl. Mauroe W. Lewis Sarah Wilhelm and James
Reed that the later 3 surveys are at least
4100 vars to long that there is a vacancy
of that amount between the survey of
Francis Passano and the 4 leagues of S. C.
Robertson given at Cameron this 28th May 1849
