

County Surveyors Office
Montgomery County
19th March 1846

To the Commissioner of the
General Land Office
Sir

Below are some connections
of the water course in this County and that
conveys the Territory of which is now in the
hands of this County

1st The South West corner of the League of Land
surveyed for J. S. Standbury and so marked on the Harris
County map bears S 75 W. 940 Varas from the South
East corner of a survey on the Montgomery Map of 13.
Labs. made for J. H. Sear Martin P. Black.
Apex of one half acre East of West San Jacinto

League on the Harris County map and the survey of
J. S. Thomas on the Montgomery map for one
third of a League both West of West San Jacinto
are identical

2^d The survey of Thomas Taylor West of Stancells
Ind. on the Harris County map and the
League survey of J. Thomas on the Mont
gomery map are identical

3^d In referring to the field notes West of
of Harris County you will find that they
call for the survey of N. Pace of 650 acres
of this County both on Peach Creek within
of East San Jacinto

4th Also on the field notes of Shubal Marsh
begun and surveyed in Harris and survey
by A. Mitchell of this County

which corrected field notes have been sent
to your office will find a connection with
G. H. Clarys survey and also reference is made
in said corrected field notes to the corner of
the old survey

I, John McCleary County Surveyor of Har-
ris County do hereby certify the above connection
to be the same made by me and that they are
correct and that connection W. S. was made
by A. McNeill a Deputy Surveyor of this County
and the same is true as taken from the records
of this office
John McCleary
County Surveyor

There is also one other connection to make
in carrying back part of West Lane survey with

up by Mr. McNeill's A. Nices survey in Harris
the field notes of which were sent to this office
for certificate I. Rejected as being nearly the
whole of it on Blakes League. There is also a
part of W. B. Bridges survey in Harris County
also upon Blakes League. I will send this
connection up as soon as made. I am not able
to do so at present as the survey has been made and
I am not able to do so at present as the survey has
been made and the office fees will not support it

Yours Respectfully

John McCleary
County Surveyor
