

FIELD NOTES in MOTLEY COUNTY.

By Request of Mr. Blaine.

1096

I, James H. Parks, Surveyor of Donley County do hereby certify, that as Deputy Surveyor of the Jack Land District I made a connecting survey in block J, in Motley County, as given in the following field notes, July 28, 29, and 30, 1882.

Beginning at a stone mound on the south bank of South Pease river identified as the N. E. cor, 235 at the mouth of Jacksons branch, now known as the fish holes,

Thence West 1900 varas to a pebble stone mound in sand draw, set by me for N.W. cor 235 and NE236, at 3800 varas set a pebble stone mound on top of a ridge in a sand hill between white flats and mouth of the Dutchman, for N.W. cor. 236 A. B. & M. cert 523.

Thence North 950 varas set a large conglomerate rock and pebbles stones on North slope edge of sand and mesquite flat for N. E. cor. 6, at 1413 pass only pebble stone hill in vicinity, at 2088 varas pebbles in river valley whence a large leaning cott 24" bears S24 E 100 vrs, and cott. 10" marked X bears S21 30 W, 21 varas at 2175 varas a point in river known by me to be ~~xxx~~ 892 varas west from the S.W. cor of survey No. 12 set by J. T. Gano in block 04. at 2554 varas a stone in valley whence a cottonwood brs S35 30 W, 60 varas a walnut N49 W, 125.

Thence West at 475 varas cross Pease river, at 984 varas set a stone md 35 varas from sand bed of S.W 40 varas from Pease below the mouth of the Dutchman, a cott 20" X S86 E 24 varas set for the S E cor 21 and the block and find it to be in error,

Thence N45 W, at 1275 varas pass a knarly cott in forks of creek at 2688 varas place a stone mound, Thence West 1900 varas place two stones on mesquite flat the supposed N.W. cor. 24, found to be error

Thence West 3 miles ---914 varas to a point 1622 varas South from the N.W. cor of 35, block J as witnessed by a marked ~~xx~~ mulberry, that fits the call for a mesquite N65 E 185 varas, from four recks,

Thence South 278 varas set a rock for S.W cor 35 block J.

Thence South 1900 varas place a flat stone and piece of brass on white flat 3-4 mile N15 E of mouth of Wolf creek, the S.W. cor 34.

Thence South 1666 varas a point in river on South line of 5 in

... 522 varas west from its S. E. cor as identified by its witnesses and the corner itself.

From this I have identified the corresponding corners N. & E in block J. and the conflicting surveys.

James H. Parks,

Surveyor Donley Land District.
