Dear Sir

The sketch sent was fine and have finished today for Mr Pivington. The two settlers Mr Mitchell + Russell were along with us through the work and at the close that our work agreed with their surveys closing which proved first corners put up by him were something over 200 us too far East I will mail this work direct to you as Draftsman so that you can use it in the Office or not as you see fit. I suppose it would have to be signed by the Surveyor of Pecos Co. to be any good to the Office

Yours

Joe Gross, Co. Sur.

P.S. Tangle 2 in field notes called Buck Tangle is the one thought to have been on sec no. 80
