

Statement to Hon. J. H. Walker,

Commissioner of Genl. Land Office Austin
Tex. in connection with my resurvey of
Sec. No 12 - Block No 6. cert. No 125-

L & S V. R. R. Co. Reagan County Texas,

We have the original ^{cor} at N.E. Corner No 1
Blk C. the N.W. cor. of No 6 Blk - B, ^{L & S V. R. R. Co} the
S.E. cor. of of No 48 Blk 37 and the S.W. cor
of No 43 Blk 36 T & P. R. R. Co. - common
corner of four blocks. This corner was
also identified by Robt E. Ester - May 3rd
1928, a clump of young mes. from old

stump br. S54W 56 $\frac{1}{2}$ or. corner is an old stone
md to which I added an iron pipe. At N.E. corner
of No 6 Blk B - is a stone md. & iron pipe
set by R. E. Ester, whence a clump of small mes.
from old stump br. N75E 155 or. - a pile of
rocks, where Ester found remains of a
partly decayed mes. stump br. N69E 23 or.
I consider this corner is identified as
original - measured distance of N. line
of Sec. 6 - is 1907 $\frac{1}{2}$ or. just as Ester found it
953 $\frac{1}{2}$ S77W from N.E. corner of No 1 - is an
an old stone md. at original $\frac{1}{4}$ Sec. corner
The N.W. corner of No 1 Blk C - I could not
identify as original but there is a corner
1906.8 or. S77W of N.E. cor. of No 1 which
I adopted. The N.E. ^{cor} of No 1 and the $\frac{1}{4}$
Sec. corner on N. line of No 1 and the N.E.
cor. of No 6 Blk B - are all on a line
range line. At the common corner of
the four blocks - at N.E. corner of No 1
Blk C - I turned an angle of 90° from
North line of No 6 Blk B - and ran
transit-line S5723 $\frac{1}{2}$ or. and hit a deeply
sunken md. of small stones which I

think is original S.E. corner of 13 Blk C
 and S.W. corner of 18 Blk B-. There
 is no other rock pile in this locality
 and this md. has been placed by human
 hands as the rocks are of different kinds
 The md was covered by earth and turf
 and only three small rocks were visible
 scattered over a space about 3 feet
 square. I dug down with point of flag
 pole and steel pins and the hidden
 mound ^{was found} distributed the 5723⁴ m.
 between the 3 sections giving each section
 1907⁸ m. putting a stone md and iron
 pipe at each section corner. See
 sketch. The work is right angle work
 with transit. - Needle indicated a
 variation of 13-34'S - I ran S77W from
 N.E. corner of 12 Blk-C 1906.8 m. set G.P.
 & stone md. for N.W. cor. of 12-. Thence
 S13E 1907⁸ m. hit old stone md. made
 by H.E. Dickerson Aug. 13-1910 for N.E. cor-
 of Sec. 14- Blk C. in his survey of 1/2 of 14
 for B.R. Davis. I Geo. M. Williams

Licensed State Land Surveyor
 do hereby certify that the above and
 foregoing statement is true and correct.
 Given under my hand and seal of
 Office at Spur 7 at this the 30th day of
 July 1932.
 Geo. M. Williams
 Licensed Land-Sur.
