General Land Office

North part of Survey 36
T & P R R Company, T 5 S
Reagan County

Dear Sir:

Enclosed are field notes and map covering the subject land. The original copy of the field notes is ready for you to mail to the Land Office with \$1 filing fee and your request for patent to issue. I am mailing the original map direct to the Land Office together with a copy of this letter.

Deeds dated January 29, 1915, recorded on page 333, Volume 8, Deed Records of Reagan County, partitioned this Section into two tracts of 131 and 520½ acres, or a total of 651.5 acres. My survey reveals a total of 648.5 acres, so the acreage called for in the deeds has been reduced proportionately to 130.4 and 518.1 acres.

Thank you for this business, and if I can be of assistance to you in the future, please let me know.

Yours very truly

M. D. Rawls

cc: Commissioner
General Land Office
