Clarksville Oct 14th 1868

Commissioner Genl Land Office
Austin Texas

Sir

Meigs Wright & Lewis
 have placed a communication in my hands
 in reference to surveys made upon certificates
 filed by and for the Estate of C. Wighheart dec.
 requiring correction & explanation. The enclosed maps
 of a section of the S.E. Corner of Red River Co.
 will exhibit the localities and connections of these
 surveys. No 179 Red River donation heirs of R. G.
 Hamlet for 960 acres 922³/₁₀ acres Surveyed error
 in field notes beginning at S.E. Corner of Survey and
 Meander West. N 62^W. 201⁹/₁₀₀ v. S 72^W. 118⁷/₁₀ v. and for
 S 14 E. 83¹⁶/₁₀₀ v. read S 14 E. 344⁵³/₁₀₀ This will correct
 the field notes. in explanation of the differences arising
 in the measure between Clark and Bar and the causes
 for it I am not able to say. but the discrepancy here
 was particularly noticed while prosecuting the
 work of these surveys. The distance from Clarks S.E.
 Corner to Bars S.W. Corner is correct at 141³/₄ varas
 and from the S.E. Corner of Evans to the N.E. Corner
 of 428⁹/₁₀₀ acres heirs of J. L. Chambers. is 304⁵³/₁₀₀ varas
 and from the N.W. Corner of E. Gisdal N 237⁶/₁₀ varas

File 116 Red River County. Constantine Yoniska
 for 640 acres. This survey by Estimation appears too large
 a recent traverse I make it 674⁸⁵/₁₀₀ acres it was erroneously
 stated at 642.6 an error unobserved by transposing Area
 counter 35141

This Survey is reported to contain 688 Acres. We have
Duplicate from Hamlet Survey of $37\frac{9}{10}$ Acres. From
Heirs of John L. Chambers 211⁷⁰⁰ Acres, 198 Acres of which is
located And Entirely Surrounded by previous Surveys
will entitle the holder to locate balance 13⁵⁰⁰ Acres
This will give an aggregate of 690⁷⁰⁰ Acres to
satisfy this Survey, The distance between C. Robinson
Southern S. E. Corner And the S. W. Corner of R. Dolby
was twice measured supposing an Error of Measurement
but it resulted in finding the distance at 594 varas
As stated in our field notes, these lines are plainly
marked. And the corners correctly marked.

The Survey of 198. Title 115 R. R. Co. location
is not in conflict with C. Davis. It became necessary
to resurvey this Davis Claim To make Connection with
it, This was done at the request of the Agent of
Mr Davis. The dotted line in red ink a tree on which
the County line was marked being taken for a corner
but no corresponding line running West for a boundary
no visible line where it should be the S. boundary of
this small Survey of 198 Acres will be substituted
for the N. boundary of said C. Davis Survey of 160
Acres. N. & S. boundary of this Survey $926\frac{14}{100}$. The E. W. $97\frac{4}{10}$ as
the markings of the corners on extremities of S. boundary
Correspond with the record.

Length of Boundaries in Red Ink were all measured
in prosecuting these Surveys

Very Respectfully

Phenton Johnson
