Above is a sketch of the Wm Brown

the adjoining surveys as correctly as can
be made but from this office

O. B. The remainder of those
surveys that you request a sketch of cannot
be given without running and I do not think
I should be expected to do it with no hope
of remuneration.

When we requested your ^{to} send up sketches we supposed that
the surveys were on the maps of your office as all surveys in
this County ought to be. Of course you are not expected to
make connections of surveys made by previous persons
without pay. There are two surveys in name of Henry Nobles
neither on maps and neither corresponding in shape with the one
which you represent.

The survey herein returned
are not represented on
the map - nor do I find
them returned (except
"Great Branch")
