Herryp Hill Soline County Tenn  
10 / 21 1912

Hon J. T. Robinson  
Land Comm;

Dear Sir

I write you in regard to the J. D. Perfermo grant of this county it has become a question of the Commissioners Court to know the exact boundaries of the above grant they claim that the people are paying taxes on a tract 13 000 acres of land on this grant and that it is overlapped by the N. McKay and the David Huffman head rights and the County wants the boundaries of the Perfermo established and it being the oldest grant in the County there is no one that knows any thing a but it there has been several surveys that has tried to run the South Bdy line but failed it calls for the Botragus Creek on the East and the Lobnellers Creek on the west so I want to know if the Land Office has any record of it or can give me any information in regard ~~to~~ to the establishing of the boundaries)

J. J. McGinn  
County Surveyor

Contains four leagues - I found 10000 varas from Lobanillo Creek to that of the Borregos which serve as boundaries, that is, on the west and east, and from north to south another 10000 varas, the corresponding landmarks having been placed on these two courses on account of not having found any well-known places on the limits of said leagues -

Juan Ygnacio Tijerina -
