

And the records are in a
wretched condition worn
and torn, most of the books
are without backs & part of
the leaves containing a part
of the field notes torn out
and cut out - in fact
the records are very im-
perfect - This office has
never been supplied with
suitable books & is now
in such a miserable con-
dition that it is almost
impossible to do anything
with it - There are a
great many survey's
in this County of patented
and tilled land of which
I have no record - I would
be pleased if the Legislature
would take some action
with regard to Surveyors
records that would place

every Surveyors office
in such a condition
that the Surveyor could
give any information
almost with regard to
lands without troubling
the Gen^l Land Office
about every little matter
Yours Respectfully
John F. Hankley
Surveyor
Sabine Co

Sabine County Texas
March the 25th A.D. 1873

Hon. Jacob Kneubler
Com^d Gen^l Land Office

Dear Sir,

I have
the honor of informing you that
your circular of March the 13th
A.D. 1873 - has come to hand.

And with regard to the
map & records of Sabine County
I would state, that the Office
of County Surveyor is not supplied
with a map, there is an old
one in the County Clerks
Office that was made while
Hon F. M. White was Commissioner
of the General Land Office
that is so worn & torn as to be
almost illegible & unintelligible.
