Dr Sir,

Your favor of 1<sup>st</sup> inst received with sketch. I must beg more time before sending a certified sketch of the diagonal surveys. I must first find where they begin on the South in the C Loeffler N<sup>o</sup> 15 & 17 Tier of Sections, in the J Kouffman N<sup>o</sup> 34, 35, 36 & 37 Tier of Sections the diagonal work exists on the ground as far North as I have worked. — Section N<sup>o</sup> 6 South of D Becker, N<sup>o</sup> 36 on the head of Milburgers Creek. — I have run no lines North of N<sup>o</sup> 6.

No lines are on the ground, East & West, and none on the ground diagonally, but the NW corners are 950 varas North of the North East corners of those surveys by the bearing trees on the ground.

I return the sketch as there will be a slight change in the C Loeffler Surv — that will require further explanation in the future which will be given soon as possible
