See letter to Watters Bros.
2/20/99 - San Saba Texas

SAN SABA, TEXAS, Feb 4th 1899

Geo. W. Finger
Austin

Sir Enclosed you will find sketch of land awarded to Perry Smith said survey is to 57 1/4 School alternate of H & T C R R Co. You will find a lap in the land as it is on the ground. Beginning at No 151 and running to No 172 is work that was done in 1847. you will find at the S W cor of survey No 151 a corner that was made in 1847. as a base line and the line runs west to W^o Bulloch county with corners each half mile. Said land laying north of base line is plotted. as I cannot find a corner as described in 1847 work after leaving base line running north. The work made on north of plat was made in 1855 and corners establish and on the ground. The 1855 work fails to meet the 1847 work by 482 varas. in running north & South. Surveys No 46 School 45 H & T C R R Co and 53 1/2 H & T C R R Co and 52 1/4 School is out out except about

55 acres of sur to 57 1/2 and 85 acres in
H & T c R R co sur to 83 1/2. The H. H. Hupgen to 166
which is 1847 work laps on F. Kroche to
173 - 70 varas. and take 235 acres of it of 57 1/2
and the same out of 53 1/2 H & T c R R co
The lines running south of the 1855 work
is 482 varas east of the lines running
north of the 1847 work. Mr Jno. Harvey
in his 1835 work ran too far south
and caused the lap. Reply
