

File 5

Shelby Co.

N. W. corner thereof

[Faint, illegible handwriting, likely bleed-through from the reverse side of the page]

county 30579

Sketch furnished at the request of J. M. Raymond.

Accurately under oath of office but this sketch is correct according to the best of my knowledge. I made the surveys of Poyrum & Bryon & a slight error occurred in calling for Echols instead of Wood.

The survey of Echols is incorrectly located in the map in use at the G. L. Office, it should be represented as being west of the most southern survey of W. C. Withers.

Robert Meriot
Dist. Surveyor
