1553

To the  
Hon. Bascom Giles,  
Commissioner General Land Office.

Report of a re-survey of  
Section No. 220, in Starr County, Texas.

Object of Survey, to determine by actual survey on the ground, the true lines and the acreage of said Section No. 220.

Surveyed on application of Harry L. Seay, Southland Life Bldg., Dallas, Texas.

Data for survey: From Original Field Notes and Field Notes of adjoining surveys;

Survey was made with a Transit with front and back sights, all angles checked by the needle. Distances were measured with a 100 ft. Steel Tape, converted into Varas.

After examining the old field notes and a thorough search on the ground, I came to the conclusion that the best point to start the re-survey, was the N. W. corner of said Section No. 220.

Beginning at said corner as fully described in the accompanied Field Notes, I ran S. 81° 04' E., following old chopped line and at 1877.3 varas found corner post as fully described in the Field Notes attached hereto.

Thence I ran S. 10° 39' W., following old chopped line and at 1930.0 varas found old squared post marked as stated in the accompanied Field Notes.

Thence running N. 79° 16' W., following old chopped line at 1840.6 varas found an old squared post under fence marked as described in the accompanied Field Notes.

Thence running N. 9° 33' E., following fence at 1871.3 varas met the place of beginning.

This Section as per the re-survey contains 625.74 acres, but I am satisfied that although there is a shortage in acreage as per the original Field Notes, the lines as ran by me are the original lines.

Blue Print of the re-survey as made by me is hereto attached.

Respectfully submitted,

*Demetrio Garcia*  
Licensed Land Surveyor.
