Dear Sir

I thank you kindly for the sketch you sent me. I have not checked the Valdez, Coppinger and Wallace surveys to find if there is conflict, and do not think any one about here will do so for a considerable time to come.

The distances you allow from block G, P.M. 34 P.M.C. to N.E. cor Val Verde C. are about what I have found there. The S. line #11, Buckley Gank & W. line #6 I have found to be ²¹²⁰ ~~2130~~ vs.

Yours Truly
John McNicol
