

...ly surveyor  
 certify that  
 sketch of all  
 North fork  
 of this County as  
 from

...Surrup's East  
 sketch is truly  
 according to  
 survey East of  
 County I do  
 cannot possibly  
 for the above

...and found  
 Pope R. W. D.  
 as they  
 R. not otherwise,

...also taken by ... connections between  
 ... East of the  
 ... County line, with that  
 ... through  
 ... survey made  
 ... connections

The State of Texas }  
County ofarrant }

I W. D. Lively County Surveyor  
in & ofarrant County do hereby certify that  
the above sketch is a true & correct sketch of all  
the surveys on Indians Creek & the bluest fork  
of Trinity in the N.W. Corner of this County as  
appears both from actual survey by me & from  
the Records of my Office.

The Connection between the Old Survey East  
& West of the Survey on Indians Creek is truly  
& correctly taken & the Survey made according  
& as to the distance between those Survey East &  
West being 9 1/2 miles longer <sup>than</sup> in Waco County I do  
not know but what it is so, but cannot properly  
say that it is, as I am willing to vouch for the above  
Sketch.

I have been upon the Ground and found  
that the respective positions of P. G. Pope & W. D.  
& R. B. Withers 160 acre Little Survey, are as they  
are represented in the above sketch, & not otherwise.  
I have also taken by Survey, a Connection between  
J. M. Crawford's 160 acre Little Survey East of the  
bluest fork, west to the County line, & with that  
Connection, the above sketch seems to through  
the Survey, McCann and other Surveys made  
to the head up to far East, but said Connection

is correct.

In reference to the D. B., A. B. & J. H. Bennett  
Surveys and also the Thompson Surveys I would  
state that there is no cause why they are not  
Patented, I have labored long & patiently  
to have all that work Patented, there has  
been Sketch after Sketch executed to show the  
situation of all the lands in that County  
& if they are not Patented in the  
Sketch, it is because the surveys are not on  
my transcript or Records.

Gives under my hand in my Office  
at Fort Worth February the 28<sup>th</sup> 1860  
W. G. Lively Surveyor  
County Surveyor

Hon. H. M. White Comr

Genl Land Office

Custin Texas

Dear Sir,

Enclosed you will find  
a certified Sketch of all the surveys on Indian  
Creek and also on the West fork, which I  
pray you to examine carefully, & Patent the  
D. B., A. B. & J. H. Bennett surveys & also the two  
Thompson surveys. I send them to you as I am  
now the authorized agent to attend to those  
surveys, & also Patent the surveys of M. W. Ellis

McClary, W. A. Sloan & J. R. McClary  
McClary also P. H. Pope and  
also N. B. Oldham also J. H. Bonnell and  
remember to send them all to me, as those  
parties have had trouble upon trouble to get  
their Lands Patented, & they having finally  
come to me and asked me to get them for them,  
you will therefore be better to send them  
as speed & please give them soon.

You will find Enclosed a certified set of  
field notes for Mc McClary's Mc McClary survey, and  
also a transfer from W. A. Sloan & from  
Mc McClary to Chas. Giddens of their Claims,  
which Claims you will Patent in Giddens name,  
Respectfully

Yours  
W. G. Lively
