RECEIVED

GROVETON, TEXAS, February 21st 1922.

FEB 24 1922

Hon. J. P. Robison,
Referred to Map
Austin, Texas.

Dear Sir:

I am herewith sending you Balance Sheet of the smaller Trinity County School Land survey. The L.E. Downes survey is 1495 or north and South instead of 950 or. I am sending you this merely to show what I wanted to do in this work; and to show and convince your office that most of these surveys were made in the office of the surveyor instead of on the ground when your clerk cut me off.

I am sure you know that a great many of these old surveys were not surveyed on the ground, but field notes made in the office.

I will say further that quite a number of surveys are different on the ground to what the official map shows.

I began this resurveying last June and have been on the ground since that time; and on account of this office surveying years ago I have caught the devil, but I have worked my way out so far correctly and to my satisfaction.

yours truly,
J. M. O'Neill

Compare this balance with your original.

I will add further when you go north from the N.E. corner of the Mrs. W. Young survey you are about 90 or East of the S.E. corner of the Goff 1107 acre survey instead of 194 or West of it.

J. M. O'Neill

counter 38572

Trinity County School Land Survey about 15 miles Easterly from Grovton by a reserve
 Beginning at the S. E. Corner of J. J. Warren and a S. W. Corner of Philip Dixon
