

THE STATE OF TEXAS) I, J. M. O'Neill, County Surveyor of Trinity
) County, Texas, do hereby certify, that, the
 COUNTY OF TRINITY.) above and foregoing map is a true and correct
 map of the Wm. H. Smith survey situated in Trinity County, Texas, about 14
 miles North-easterly from Groveton, correctly showing the conflict of said
 Smith survey and the Wm. McClendon survey; that more than twenty years ago
 I went on the ground for the purpose of re-surveying said Smith survey; that
 I looked and searched diligently for the original S. B. line of said Smith
 survey; and again about sixteen years ago when it was all virgin timber, and
 I could not find any mark or trace of said original S. B. line and do not
 believe after the two careful and thorough hunts for said line that it was
 ever run or marked on the ground; that I found a line 2882 vrs south from the
 original N. W. corner of said Smith survey running East to the W. B. line of
 the Wm. McClendon survey and a corner established which ~~then~~ showed then to
 be about thirty years old, now about fifty years old; that I found the original
 well marked lines and corners of the McClendon survey; that this conflict has
 been used, occupied, cultivated and conveyed as a part of the Wm. McClendon
 survey for more than twenty years; and that by diligent inquiry I find no
 assertion of title was ever made or demands made for rents to this conflict
 under said Smith title.

Witness my hand this the 5th day of April, 1921.

J. M. O'Neill
 County Surveyor, Trinity County, Texas.
