As you requested to know the result of a connecting line that I would make from information through your office kindly furnished me. I herewith send you the run I made. I had no difficulties in finding the end on hill. & recognizing the peculiar bend resembling a horse shoe. with this and the other connections from the S. E. corner of run No 619 T.I. + M.F. Co. on the Rio Grande ought to show the relative positions of Blk D.^{D7} + Blk S. B. as far as I went up the river. also Blk A. 1. G. N. + H. R. R. is

Yours truly
