Mr. C. B. Thomson  
Director of Surveying  
General Land Office  
Austin, Texas

RE: J. H. Dearborn and J. J. Fletcher Surveys  
Van Zandt County, Texas

Dear Mr. Thomson:

With regards to our telephone conversation on Friday, January 19, 1990 we have revised our construction of the south line of the J. H. Dearborn Survey so as to be the called distance south of the northeast corner of the Hugh Neal Survey and thence run due east to an intersection with the patented upper west line of the J. J. Fletcher Survey for the southeast corner of said Dearborn Survey.

Please find enclosed the revised sepia of our Survey Map No. V-312-2 along with three blue line prints depicting the surveys as reconstructed, should you have any questions, please call.

Yours very truly,

HARRY L. JOHNSON & ASSOCIATES, INC.
