

Laredo, Texas

February 20th 1875.

Hon. J. J. Good
Commissioner Gen. L. Office

Sir

In view of the many errors that exist in the surveys heretofore made in Encinal County and the consequent confusion which results therefrom I have prepared and herewith transmit a map of all the surveys made in Encinal County -

I have connected all these surveys with Porcion No 40 (patented) of Webb County, and thus the map represents the actual position of the surveys on the ground. I have been unable to measure all of the original surveys, and consequently in explanation of the

map say that those surveys design-
nated with red ink have not been
examined by me but have been
placed on the map as near to the
place they should occupy as by
calculation could be done.

I have the honor to be

Very Respectfully

Your Obedt Servt

Cayetano de la Garza.

Chief Surveyor

St. Louis
