

Scale 4000 sq to
the inch
W. Addison

Plot compiled according to surveyors certificate see file 1-1661 Milam etc. Following the connections between Bevil, Mahan, Baker & Zarza as given in the R.R. surveys Nos 1 to 8, and made by the same surveyor nearly at the same time, as basis, it will show that said certificate together with said R.R. surveys will create a great discrepancy between the Aguirre grant and the pta surveys joining south and west said grant.
