

To the Honorable County Courts of Anderson and Houston Counties, Texas.
Gentlemen:-

We, the Surveyors appointed by the County Courts of Anderson and Houston Counties to locate and define the boundary line between said Counties beg to submit our report of said work. We have located and marked the line from the Neches to the Trinity Rivers, following the original line and the line agreed on by the County Courts of above mentioned Counties, tied in all original surveys crossed by said survey, and established permanent concrete post at initial corners and at each mile of said line, said post being five feet long and eight inches in diameter, reinforced their entire length with steel rods, and set in the ground three feet below the surface and projecting two feet above the surface, back filled and well tamped.

The following are the field notes of the above mentioned survey:
