THROCKMORTON

11/18/33 YOUNG

From the A D Kerr figures - filed here November 18, 1933 - I find he has given the Tex Imm & Land Company surveys (above) 323.8 acres. The original fieldnotes made in 1853 call for 320 acres, so in abstracting I have taken from each survey in each county 1.9 acres to conform with the area shown on the Files - 320 acres. This excessive difference in the re-survey shows the majority of the surveys to be 1353 varas, against 1344 varas, as made in 1853. December 7, 1933. R B N, abstractor.

Abstracted in Vol. 56.
