

1 The fieldnotes of the Countylines of Callahan County cannot be
2 approved, because they have been based on the S.W. corner and South
3 line of Stephens County established ^{and} surveyed by R. A. Mc. Keilly in 1880,
4 whose fieldnotes have not been approved by this Office.

5 Mc. Keilly's line crosses the Eastline of University survey N^o. 99 380 ors South
6 of the N.E. corner and 556 ors South of the N.W. corner of N^o. 465 - and then drop-
7 ping South 184 ors crosses the Eastline of N^o. 465 740 ors from the N.E. corner -
8 continuing ^{East it} coincides nearly ^{at its East end} with the approved Southline of Stephens Co. but
9 does not reach the S.W. corner of Palo Pinto Co.

10 The S.W. corner of Stephens County, approved by this Office is over a mile
11 East from ^{from the corner adopted by Callahan Co} being 1135 ors South and 136 ors East from the N.W. corner of survey
12 N^o. 464 S.P.R.R. Co.

13 The lines of Shackelford and Jones Co. depend on Stephens County and
14 the error was caused by the survey and approval of the Countylines of
15 Jones County, whose S.E. corner was located North of the extension of the
16 Southline of Palo Pinto and Stephens Co. before the Countylines of the latter
17 County were properly established.

18 The only remedy for mending this error, unless you conclude to exercise
19 the right awarded by the 25th Legislature, shown in Article 808 a, page 222
20 in the prosecution of a suit, would be to run a straight line from
21 the approved S.W. corner of Stephens County to the S.E. corner of Jones
22 Co. for the Southline of Shackelford and Northline of Callahan Co. -
23 also a line running South from the approved S.W. corner of Stephens
24 Co. for the Eastline of Callahan County.

25 C. W. Pressler

26
27 Please after reporting the above objections to J. E. Thomas, County
28 Judge of Callahan Co. return this paper to my desk to be filed with
29 the fieldnotes of the Countylines of Callahan Co.
