Thence W 1900 vs post- mkd XIX on south & XV on north side

from which the S E cor of Manson Sheld sur bears N 629 0 vs & W 388 vs PO blazed on four sides a PO S 56° W 4 vs do S 32° W 3 vs

J. C. CHESNUTT,

COUNTY JUDGE, CLAY COUNTY.

Henrietta, Texas, Oct-22 1891

Hon W. L. McLaughly Sir

I have just returned from getting the connections of the South line of Clay Co. You will notice that the John Gott connections from the N.W. cor to Co. line & from N.E. cor to same don't correspond by some 300 or or nearly. Both of sd corners are well identified & marked on the ground but the survey does not run ~~27 N 71 E~~ as called for but varies some 3 or 3 1/4 Any other discrepancies you may find are from same cause

All the corners called for in field notes of sd Co line are well identified

Very resp

R. J. Brown
 Special Surveyor
 Clay Co

& E 716 vs - Thence W 1900 vs post-
 mkd XXIX on south & XXV on north
 side Thence W 933 1/2 vs Sailors branch
 at-1026 vs post- the S W cor of Clay Co
 on E B line of Archer Co 1570 1/2 vs E of
 west- line of W Rockefeller sur. &
 3-5-8 vs north of west- fork of Trinity
 River from which a hackberry tree
 mkd X 10 in in diameter bears N 24 E
 32 vs a PO 8 in mkd X bears N 69 W 39 vs
 & an elm 24 in mkd X bears S 12 1/2 W 50 1/2 vs

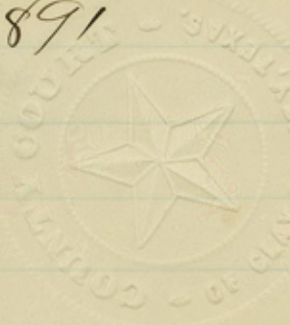

Variation 8³⁴'

R. J. Brown
 Special Surveyor Clay Co
