

M. Kinney Collin Co. Tex
April 23^d 1881.

Mr C Nash Esq
Comrsr Genl Land Office } Dear Sir
I have received your communication
of April 14th 1881 and in reply
would respectfully state that the survey
made by myself of the East Boundary
Line of Collin County was made to
correspond exactly with the survey of
the same line made in 1850 by
Geo. White = and in my Field Notes
to you of said survey I gave all the
evidence of his line found by me
excepting what are usually called
side line trees = if you cannot
locate or plat the line from my own
or White's Field Notes please reply
and state if possible what connections
it would be necessary to make in
order to enable you to make the needed
plat. Our County Court appears to
be liberal and willing to do all
that may be necessary in the pre-
mises, and I am confident they
would act readily upon any positive
instructions from yourself - I under-
stand fully what you need - but
the Court prefers to be guided by

4-20-1881

Hunt Co line

Miss

Collin Co. Sp. In

and 1/2 of

now - and have instructed me
to make this reply

Very respectfully
Charles W. Hayes
Special Surveyor
