

The Southline of Dallas Co. was run in 1850 by W. A. Ferris.  
The same line was reestablished in 1892 by Special Surveyors appointed by the Courts of Dallas and Ellis Counties, which was therefore not a new line, a slight change was however caused by the latter line giving connection to surveys, which Ferris' line failed to do.

The latter line was filed in the Gen. Land Office August 10/92 and examined and approved by G. N. Beaumont Sept. 6/92, but the Abstract appears not to have been corrected accordingly.

C. W. Pressler.
