

Amarillo, Texas April 20", 1915.

Hon J. T. Robison,

Austin Texas.

Dear Sir:

In reporting my resurvey of the west line of Gray county, for which surveying work I was in all things duly appointed and fully qualified, I overlooked a clerical error thereby permitting my report to read " which post is 61 miles and 5214 feet west from the 42" mile post. My field book and plat shows clearly that this is and should read 60 miles & 5214 feet. Please consider this your authority to correct your record to read 60 miles + 5214 feet, this reading being correct and in accord with the facts as I found them upon the ground.

Yours respectfully,

W D Twichell
