variation 10 1/2 E

I W. J. Sayre County Surveyor of Hamilton Co Certify that according to the line run between the Counties of Cayuga & Hamilton by the County Surveyor of Cayuga County (a copy of the field notes of which is on file in my office) & said field calls to pass the S.E. Corner of Joseph Rohr. among Sec W at 31 miles 900 rods.) that the J. Osborne 320th N 69 - & the J. Osborne No 70 - are in Hamilton.

But I am under the impression the said field notes should have called for the S.W. Corner of Joth Rohr 160th instead

Lab would place this as
undicated in the most westerly
Latin as shown in flat and in West
Case there is about 5000 of these No 70 in
Coryell County

Given under my hand this
May 21st 1884

W. G. Lusk
Co. Surveyor H. C. Co.
