Corrected Field Notes of  
West Boundary Line  
of  
Hartley County Texas

State of Texas } In matters of corrected field  
County of Hartley } notes of West Boundary  
line of Hartley County

Be it remembered that whereas the location of  
the west boundary line of Hartley County was  
incomplete in this, said location did not give  
the distance of the several corners of the different  
surveys along the line of said West Boundary and  
whereas Mr. E. F. Batts the surveyor who established  
said line for Hartley County was by an order of this  
Court required to make corrected field notes & map of  
said line showing the distance between the corners  
of the several surveys along said line and it ap-  
pearing to the Court that said field notes & map have  
been so corrected & has been filed by said survey-  
or and that the same has been duly recorded by the  
County clerk, It is therefore ordered by the Court that  
corrected field notes & map of said West boundary  
line as returned & corrected by Mr. E. F. Batts  
Surveyor and recorded by the County clerk are  
hereby accepted, approved & adopted  
the said field notes & map are  
as follows. ---
