Edna, Texas, June 5th, 1924.

Hon. Commissioner General Land Office:-  
Austin, Texas.

Dear Sir:-

In answer to your letter of April 15th, 1924 concerning Sec. 6 T.&N.O. Ry. lands lying on the Jackson-Victoria County, line, we beg to state as follows:-

That said County line has been surveyed in order to determine the assessments in a County Line School District. And both Counties have adopted said line and the field-notes are now of record in both Counties as adopted.

We hand you herewith Certified Copy of said Field-notes covering that part of said County line not determined by natural boundaries, and which appears to us as being sufficient, as it gives specific and definite distances and directions. And if same be sufficient, then we will thank you to file same and make your Abstract changes all along the line, showing the proper acreage in Jackson County and the proper acreage in Victoria County, so that said showing will come out in your next issue of Abstract Compilation and changes as issued by your office each year.

If the enclosed will not be sufficient for your purposes then indicate what you will require, as it is desired to have this matter straightened out. As you can well see from these field-notes the acreage as now given is very erroneous.

Very truly yours,

The Jackson County Abstract Co.  
Edna, Texas.

BY A. Stivers Mgr.
