

In Commissioners Court of Kaufman
County; August Term A. D. 1882.

The State of Texas } To the Hon Com=
Kaufman County } missioners of
Kaufman County:

Pursuant to your order of
17th September A. D. 1881. After having duly
qualified and made the bond as the
law directs, I met Mr J. A. Money who
was appointed Special Surveyor by
the Commissioners Court of Hunt
County to assist in making a survey
of the line between Kaufman County and
Hunt County, on the 28th day of November
A. D. 1881, he and I disagreed as to the
true point of beginning, and reported
our disagreement to the Commissioner
of the General Land Office, His decision
dated Dec 19th 1881 I append as a part of
this report;

General Land Office

Austin, Texas Dec 19th 1881

L. H. Bryant Esq.

Dear Sir:

I have your report of Nov 30th 81, relative
to disagreement between yourself and
J. A. Money Special Surveyor of Hunt Co.
as to dividing line between your counties
I enclose a copy of a letter of 7th inst to
Mr Money on this question which
answers your letter. The object of the
law under which you are acting was
to ascertain and definitely mark the

the boundaries of counties, where any doubt existed as to their exact position; I do not see the pertinacity of a plea of limitation. If it were contemplated to run a new line different from that specified in the law, such a plea might possibly be entitled to consideration, but your efforts are to find and mark the exact line indicated by the acts creating Hunt and Kaufman County. If you and Mr. Money cannot otherwise agree on the starting point, you must go back to S. W. corner of Lamar as established in 1844 and run Thence South $38\frac{1}{2}$ miles Thence West 25 miles, on this last course, when you have reached N. E. corner Kaufman Co, you have your beginning corner. Let me call your attention to the concluding paragraph of my letter to Mr. Money

Yours Respectly
W. C. Walsh Comr.

On the 23^d day of April A. D. 1882 Mr. Money and I met by agreement again to determine said county line, and Mr. Money and I failing otherwise to agree on a starting point. I proceeded immediately to the S. W. corner of Lamar County, I would state here that Mr. Money accompanied me; but distinctly stated it was not for the purpose of taking any part in the survey; but to defeat if possible any survey I should make. The corner

of post at the S. W. of Lamar county) having been removed, and not being able to obtain any field notes of said corner. I then proceeded to the mouth of Bois d'arc on Red River and measured to a point 30 miles South of the mouth of said Bois d'arc and on the meridian South from the late residence of Carter T. Bliffts deceased. Here Mr J. A. Money acknowledged that I had made the S. W. corner of Lamar county definite and that there could be no objection to beginning here on account of uncertainty, but declaring that he as soon as his health would admit, would begin at a point marked in 1846, as the S. E. corner of Hunt County and run the line, left me, I began here at the S. W. corner of Lamar county surveyed South, at the 23rd mile post Mr J. A. Money returned to me saying he had come to acknowledge himself whipped and asked to take part in the survey, if I would permit, which I readily agreed to, Mr Money on account of feeble health remained in the wagon and I continued the line to a point 38½ miles South of the S. W. corner of Lamar county, at this point we lay in camp one week on account of High Waters, Mr J. A. Money health remaining feeble, after fully agreeing to my survey, saying there would be no protest against the

line etc etc and that it was not necessary for him to be known in the report, he left me for his home. I then ran West to the N. E. corner of Kaufman county, This point is 38 $\frac{1}{2}$ miles South and 12 miles and 10 $\frac{7}{11}$ vrs West of the S. W. corner of Lamar county and 603 vrs West and 142 vrs North of the S. Addenda

In running South from Carter bluffs
 I traced the old Gammil land dist
 line as run by W. D. Orr in 1850. to S.W.
 corner of Hopkins County the old marks
 are plain yet, variation 8° 40' East
 I marked the side line trees with
 two hooks, fore and aft with

three backs. L. N. Bryant
