Field notes of a survey made in accordance with an order of the Hon Commissioners Court of Lampasas County Texas directing the County Surveyor of said County to establish the North Boundary line of Lampasas County in the manner prescribed by law in such cases.

Beginning at the most ancient corner established for Lampasas and Coryell Counties on the south boundary line of Hamilton County: this corner is very ancient and was made around a Live Oak but the tree has been cut down. I tested this corner by running $N 60^{\circ} E.$ over to Grant where the Hamilton and Coryell line is well defined and agreed upon besides the natural and artificial marks by which I identified the corner I had abundant testimony from living witnesses that the stone pile around the stump is the true and correct beginning corner. said corner bears $N 19^{\circ} W 360$ rods from $N E$ corner of G J Benson Pre. Sur.

Thence $S 60^{\circ} W 1900$ rods 1^{st} mile a stone set in ground near a dwelling.

Thence $S 60^{\circ} W 1900$ rods 2^{nd} mile a stone set into the ground near a not or bunch of timber from which $S W$ Cor of F. Damm bears $S 375$ rods on $N B L$ of E. P. Bailey.
