

Field notes & Plot of boundary line between Lampasas
and Burnet Counties -

It appearing to the court that the Boundary
Line between Lampasas and Burnet Counties
is not sufficiently definite and well defin-
ed, It is therefore ordered by the Court that E.
Brown Surveyor of Lampasas County Texas,
be and he is hereby appointed and authorized
to proceed to ascertain by actual survey and
legally mark the "Boundary Line" between Lam-
pasas & Burnet Counties. Beginning at the
upper corner of the Sallie House (widow of
James House) League number fourteen (14) on
the Colorado River, Thence East to a point
N 30° West from the point on the Lampasas River
where the lower line of the W P Reese survey
crosses the same, said survey to be made, run
Established and marked according to Law.

It is further ordered by the Court that E Brown
Surveyor as aforesaid proceed to make said
survey on the 19th day of May 1890 at 12
o'clock noon and to co operate with any person
duly appointed by the proper authority of Bur-
net County and reporting to assist in said
work. It is further ordered by the Court that
a certified copy of this order be sent to the
County Court of Burnet County Texas.

In obedience to and compliance with the above
and foregoing order I proceeded to the N.W. Corner
of the Gas House League Survey N° 14 on the
Colorado River and was there at 12 o'clock noon

May 19th 1890 to begin the survey as ordered. No
one appearing from Burnett County to cooperate
and assist in said survey I proceeded to
qualify Chain Bearers and make the survey
according to article 691 a: Beginning at the
S.W. Corner of the Gas House Survey No 14 as
Established at Goat Head Bluff on E Bank of
the Colorado River by the Burnett County sur-
veyors, I proceeded to meander down the river
found the S.W. Corner of the Gas House survey
as Established with 1 L.S. Bearing mark H this
making said survey 2610 vs between its N^{ed} &
lines instead of 2550 vs as called for in its
field notes, I then proceeded down the river
with my Chain Bearers and guides to the lower
line of the Fredrick McKnight survey No 9 the
S.W. Corner of this survey, being sufficiently
definite, I proceeded to run East along an
ancient well defined line on which is built a
Post and wire fence at 2850 vs I proceeded to
run North at 2638 vs N.B. Line of said McKnight
survey. Thence N at 1892 vs the common line be-
tween the two Tho^s Messon survey's line well
defined Thence N at 1800 vs N.B. Line of the upper
Messon survey line anciently marked.
Thence N at 1323 vs the N.B. Line of the Asa
Fowler survey a well defined line anciently marked.
Thence N at 950 vs the S.B. Line of the Gas House
survey No 14 as Established by and surveyed
from by all the previous surveyors of Burnett County

as shown by their placing the N corner of the two Bonans & Paul Jones Sur as said line, Thence N at 2610 vs the N.B. Line of the Jas House survey N^o 14 as established by surveyors Motley, Moses & Chamberlain of Burnet County, This line is just 22800 farther North than the Field notes of the survey from the F M Knight lower line up north call for said line to be, But all of Burnet County surveyors having agreed on this line and having had Land "patented" from said line, I thought it just right and proper to "move up" to this point, giving Burnet County an excess of 22800 from the lower line of the Fredrick M Knight Sur N^o 9.

Here I established the S.W. Cor of Lampson as County Thence W. along an ancient and well defined line variation 9° E at 5700 vs a st end the N.W. corner of the Jas House Sur N^o 14 on Goat Head Bluff on east bank of the Colorado River which bears at this point N 55 W. by S 00 E. a deep Gulch S 36 vs.

Thence East (variation 9° E) along the North brink of a deep Gulch at 360 vs top of mountain old line marks; here I began to blaze and make two hacks above and two below the blaze to denote County line at 1110 vs a deep hollow at 1900 vs set 1st mile stone a rock monument marked on top L & B Co Line 1 mile East C.R.
