In re: Lipscomb-Ochiltree County Line.

Dear Mr. Walker:

I believe we neglected to indicate to whom your tentative findings in the above matter should be forwarded, and I failed to furnish you my post-office address. I shall be obliged if you will forward your finding either to me or to Mr. E. H. Ervin, this place.

We are continuing our investigations here and will furnish all available data as soon as we learn what you find to have been considered the 100th meridian in 1876, if your finding is not in accord with our convictions.

Very respectfully

*W. H. Sewell*
