Osgill

April 5<sup>th</sup> 1893

It appearing to the Court that a joint survey  
to establish, define & mark the line between McLennan  
and Limestone Counties made under the order and by  
the agreement of the County Commissioners Court, of  
McLennan County & Limestone County on the day of  
1883 and duly reported to the Commissioners  
Court of this County at the February Term 1884  
and duly approved by said Court, recorded in the  
minutes of said Court in Book 3 Pages 470 & 71  
of said Court, had never been certified to the  
General Land office as required by law. And it  
further appearing to the Court that the old line  
between said Counties is still recognized by the  
Land office and that McLennan County is thereby  
being deprived of taxes on a large amount of  
land which is now abstracted in Limestone County  
but which property is justly a part of this County  
It is therefore ordered that the Clerk of the County  
Court of this County at once prepare a certified  
copy of the report of said surveyors and the  
approval thereof by the Commissioners Court and  
forward the same to the Commissioners of the General  
Land office at Austin
