CLARK'S ADVERTISING, PHOTODUPLICATIONS

For M. Kavett, Menard County, Texas. Sept 18 1893
Hon J L Mc Gayney
Commissioner Land Office

Austin Dear Sir: In
behalf of the Commissioners Court of Menard
County I respectfully request that you
defer any action in regard to the survey
of the west line of Menard County recently
made by Mr Mc Nicol of Cotton Co, till you
can get the report of Mr Schuchard
& can find out just how the work was
done, I regret to say, that from what I
have heard the survey was very badly done
& can not possibly be correct, as they changed
their variation at least three times, & though
the country is very rough & rocky in places
they cut no brush, chummed over the straits
& made not one inch of allowance in the
run of 26 miles. We are just as anxious
as you are that we should have a correct

line I am willing to accept Mr McKibbin's work
if properly done & we now ask that you
suspend action till you can ascertain the
facts & give us a correct line. Mr McKibbin
has stated that he could get his work
approved by you any way. Mr Schuchard
will make his report at the November meeting
of Commissioners Court & if approved it will
be forwarded you. till then please suspend
action

Respectfully yours

Chas B. Burdick
