

General Land Office.

Austin, Texas, 188.....

Your favor of Nov 17th with
accompanying field notes of County
lines of Mitchell Co has been
received and relying will state
that the field notes are of no
use or value to this office
for the reason there is no
variation given by which the
lines were run, and not a
single connection with corners
of surveys through which the
lines pass nor is there a
corner of the County described
with sufficient accuracy to

which a Connection can
be made with Surveying
instruments

The Variation to be used
should be about $10\frac{1}{2}^{\circ}$ East
at the N W Cor of Colburn
County to 10° East at the
N E Corner of Midland
County.

You will please make
necessary Connections as
required by law, so that
the Abstract Case be cor-
rected with such degree of
accuracy as to avoid the ex-
posure to the State of an
Error in the
feature.

Respectfully
Yours
C. W. Brown
