

R. S. FULLER

COUNTY ENGINEER AND SURVEYOR
TAYLOR COUNTY

ABILENE, TEXAS

May 13th 1922

Wm J. Robison
 Owner of Land.
 Austin

Dear Sir

I am sending you herewith a sketch of the location of the N.B.L. of J.P. Brown Block 29. 1st as I find it on the ground, my survey of the County line between Mitchell & Howard Counties shows an excess in the length of the J.P. N.B.L., as surveyed by the land surveyor it would also show an excess in the H&J RR Blk 26. The corners north of Sec 10 and 9 are correctly placed south of the County Corner of Howard Border & Mitchell Counties. The total length of the J.P. Blk 29 1st, my survey agrees with the lines along the Rail Road showing the full length of my line across the Block, also agrees with the S.B.L. of Blk 25. H&J. The N. line of Sec 10 & 11 and the North line of the Reservation as shown on the plat lay 1567m N of Mile Cor. on County line at 23 miles ~~we~~ need one fence. I was unable to find any corners inside of the pasture the same condition exist on the northern portion of Blk 29. I find no corner establishing Sec 40 H&J. Blk 26. Taking the N Bdy Line of the J.P. Blk 29 1st, which is 1180^{ft} on a line run N 102° W would show Sec 40 to be much larger than described on the field notes. The error in the field notes

R. S. FULLER

COUNTY ENGINEER AND SURVEYOR
TAYLOR COUNTY

ABILENE, TEXAS

and the location on the ground is seen to
occur in this locality. I can not find an
error in the measurement made by me on the
County line and desire to have my working
Contract with the two Counties settled up.
I will ask you take the matter up at the earliest
possible time and notify the Councils of
Howard & Mitchell of the fact.

Sincerely,
Yours Very Truly
R. S. Fuller
