In regard to the line between Jones & Shackelford would say that there is a strip there  $1\frac{1}{2}$  miles wide which managers did not get & where the parties about 25 do not know where to vote, or to pay taxes. Shackelford Co. concedes that the land belongs to Jones. We are instructed as to where these parties vote & if it is only a question of price error, what steps can be taken to get the matter straightened out.

Yours truly  
James Marshall
