Comr. Gen. Land Office,
Austin, Texas.

letter

Dear Sir:- In reply to your of the 15th, inst., in regard to the T. E. & L. C. on the Clear Fork on the south boundry of Throckmorton Co., These surveys do not cross the river but the northwest and southeast boundry lines ~~are~~ are supposed to be continious in course but not distance, as the measurments stop at the river bank.

I have just completed a survey map of Throckmorton Co., and am now working on a like map of Shackelford Co., for an oil Co.

It would be a personal favor to me if you will furnish me a print of your map just as soon as completed as the maps I am making are personal data and I will not be furnished with a copy.

A number of years ago Shackelford Co. employed their County ^{EW.A. Eahart} ~~mark~~ Surveyor to locate and ~~the~~ the north, west, & south lines, these lines are now used as the boundry and are of record in the County Clerks office.

I will ~~prepare~~ mail you a copy of the field notes of the north boundry line in the next ^{day or two} ~~4~~ as run by Eahart, and if the field notes of the west & south lines will be of any service to you I will be to send you a copy of them also.

Hoping this is what you wanted,

I remain,
Yours truly

F. B. Stribling
